

LETTER OF MOTIVATION

Subject: Motivational Letter for Stipendium Hungaricum Scholarship

Dear Admission Committee,

I am thrilled to write and apply for the Stipendium Hungaricum Scholarship to pursue my Bachelor's degree in Computer Science. My name is Muhammad Muzammal Hussain. I hold my secondary school certificate (Matric) with about 95.1% marks and my Higher School Certificate (Intermediate) with about 93.9% marks. Furthermore, I have been learning modern technologies, including JavaScript, HTML, CSS, Mongo DB, Express JS, and Node JS since 2022. I am working on the basics of Website Development, which is giving me a strong foundation in logical thinking and analytical reasoning crucial for computer science.

As a dedicated student with a passion for computer science and a commitment to making a positive impact, I am confident that my excellent grades, practical experience, and diverse interests make me a strong candidate for this huge opportunity.

As the future focuses on AI, Machine Learning, and Cybersecurity, fields of Computer Science, my grades reflect my eagerness for modern technology education. I want to keep myself groomed in this modern and advanced era. So, I chose the Computer Science program.

Hungary's rich history, vibrant culture, warmth and hospitality, and commitment to academic excellence make it an ideal setting for my educational goals. Hungary is developing rapidly day by day in modern technologies. People from diverse cultures come here and provide a diversified environment which suits me as I believe in diversity. Hence, it's the perfect choice for my studies.

Enrolling in the Computer Science program will boost my technical skills, offer a holistic understanding of the field, and fulfill my dreams. I aim to delve into emerging technologies, deepen my knowledge in AI, Machine Learning, and Cybersecurity, and develop crucial problem-solving abilities for my future career.

Beyond academics, my sports and motivational speaking engagement underscores my commitment to well-rounded personal development. I believe in the power of diversity and versatility, and I am confident that my varied skills will positively contribute to the university community. So that makes me a suitable candidate for this program.

I aim to become a Computer Science professional specializing in modern technologies like AI, Machine Learning, and Cybersecurity. After mastering these technologies in Hungary, I will come to Pakistan and pursue my skills and implement my experience gained in Hungary.

In a tech-driven era, the demand for computer science professionals is rising. I am pursuing a Computer Science degree to contribute to societal solutions. I will try to serve the nation whenever I am allowed to use my skills to benefit society and make this world better.

After completing the program, I plan to be equipped with the knowledge and skills to contribute significantly to the technological landscape. I aspire to innovate in software development, artificial intelligence, and

cybersecurity, staying ahead of emerging technologies to impact society positively.

Studying abroad presents both opportunities and challenges. I'm prepared to overcome difficulties with open-mindedness, cultural sensitivity, and proactive engagement. I'll actively join orientation programs, seek mentor guidance, and engage in extracurricular activities to connect with fellow students.

In conclusion, I'm eager to study Computer Science in Hungary, believing my background and commitment make me a strong candidate for the Stipendium Hungaricum Scholarship. I am excited to contribute to your academic community and look forward to pursuing my passion in Hungary. Now, my only need is to give me this opportunity so that I can play an essential role in this society.

Thank you for considering my application.

Sincerely,

Muhammad Muzammal Hussain
